

OPTICOLOUR
CONTEMPORARY GLASS WALL COVERINGS

Wise Guys

We are proud to supply Hampshire-based [Two Guys Kitchens](#) with glass wall coverings for the luxury interiors they design and install. Recently we fitted several panels of [Antiqued Metallic Patterned Glass](#) in their Basingstoke showroom, to allow their customers to see this striking modern decor in person.

The Antiqued Metallic range is available in eight colourways, comprising four silver and four bronze tinted options. The glass chosen by Two Guys is made from our Grey Marble (AM004) design, a stunning high-contrast pattern in swirling silver-grey and charcoal-black. Streamlined monochrome cabinets with flat glossy surfaces create the perfect setting for these bold panels, and their lustrous finish is further enhanced by concealed downlighters and luxurious chrome accessories.

We also went the extra mile by fitting matching panels of glass at the back of recessed shelving, a bespoke detail that gives a polished finish and provides an eye-catching backdrop for ornaments or treasured objects. We're thrilled with the results, and if you're in the Basingstoke area we highly recommend a trip to Two Guys to view the glass along with their other fantastic kitchen and bathroom modern decor designs.
