CONTEMPORARY GLASS WALL COVERINGS

## Reach for the sky

Digitally printed glass offers a multitude of options for kitchen wall decor, from personal pictures or drawings to professional landscape photography. Skyline art lends itself particularly well to kitchen panels, as its extended rectangular shape is ideal above the worktop area and can easily be modified to fit the space required. While it would certainly suit a modern kitchen, it could also work as a spectacular finish in a more traditional interior.

We offer a range of famous landmarks and cityscapes that can be adapted to suit your space. From Hong Kong's Victoria Harbour to New York's famous collection of towers and skyscrapers, any location can be sourced from our library of photographs or our internet image bank for your kitchen wall decor. Choose a place that is meaningful to you and your family, or a glamorous city that you've always dreamed of visiting, and we will create an eye-catching display that will provide a bit of escapism every day.

Of course, skyline glass panels are not restricted to the kitchen. They would create a fabulous piece of wall decor in any room – a striking piece of art in the dining room, perhaps, or an inspiring vista in the study.

If you would prefer a subtler design, a skyline silhouette also looks fantastic. We love this grey-toned depiction of London, featuring well known buildings such as the London Eye, the Shard, St Paul's Cathedral and the Palace of Westminster. In this pretty, neutral kitchen it lends a dash of cosmopolitan chic and adds a unique and original design element to the room.
